One of the main manufacturers of PVC REHAU windows in Romania

Our company started the activity as manufacturer of carpentry in Bucharest. With a young and dynamic team of professionals in the areas of: technical, marketing, manufacturing and installation, we worked together to offer you the products and services of the highest quality.

REHAU BRILLANT DESIGN 70

Depth of construction: 70 mm / 2 joints of contact
 Number of rooms: 5 rooms
 Thermal insulation: $U_f = 1,2 \text{ W/m}^2\text{K}$
 Glass thermal insulation: $U_g = 0,8 \text{ W/m}^2\text{K}$ (recommended)
 Soundproof: up to $R_wP = 45 \text{ dB}$
 Anti-theft protection: until the 3rd class of resistance
 Permeability in the air 4 (EN 12207)
 Tightness in the rain E900 (EN 12208)
 Structure: galvanized steel with thickness of 1,5 up to 2 mm
 Economy of energy: up to 56% (basis for comparison: wooden window/ PVC with $U_w = 2,7 \text{ W/m}^2\text{K}$)
 Hardware store: MACO Multimatic with micro-ventilation system and anti-theft

REHAU GENE0

Depth of construction: 86 mm / 3 joints of contact
 Number of rooms: 6 rooms
 Thermal insulation: $U_f = \text{up to } 0,85 \text{ W/m}^2\text{K}$
 Glass thermal insulation: $U_g = 0,6 \text{ W/m}^2\text{K}$ (recommended)
 Soundproof: without reinforcement up to $R_wP = 47 \text{ dB}$
 (with glazing $R_w = 50 \text{ dB}$)
 Anti-theft protection: until the class WK3 and the class WK2 without reinforcement
 Permeability in the air 4 (EN 12207)
 Tightness in the rain 9A (EN 12208)
 Energy savings: up to 76% in relation to classical windows
 Structure: galvanized steel with thickness of 1,5 up to 2 mm
 Hardware store: MACO Multimatic with micro-ventilation system and anti-theft
 Material: Composite with fibers RAU-F1PRO®, The exterior is covered with high-quality materials are used for windows for better energetic efficiency of their class.
